A Miss, Miss-kissed.

The Washington Standard relates an amusing incident to this effect. A friend of the editor was expecting his mother in the evening cars from Baltimore, and like a good son repaired to the depot to meet her. It was a dark day, and by the time the cars arrived there was no such thing as distinguishing the faces of passengers. As he entered one of the cars, a lady seated in a corner addressed him as "Father,"-the voice was his mother's, and the title one which she always gave him while at his house, and among his children-so, without hesitation, he threw his arms around the lady's nock and hissed her. Just thon a gentleman pushed him gently aside, and went through the same ceremony. This was very strange, he thought, a man kissing his mother! Hardly had the thought passed his mind when his veritable mother came forward and kissed him. Very much embairassed, he turned to the gentleman, and said, "Sir, I have made a most egregious blunder, but whose pardon shall I ask, yours or the lady's?" The meek reply was, "thee had better ask the lady, though I don't know which had the best of the bargain, thee, or my daughter."

The challenge works well. The Beliast Journal says the Enginemen of that town do not fear the result of the contest between their ' Hydiant' and our Engine. Very well. We consider the challenge accepted, and name the engine Bangor' our No. 5 as the machine that is to do the business, with such of our Enginemen as can make it convenient to attend. The place of meeting is at Bucksport, and the time we shall leave for the Beliast 'Fire Eaters' to name .-All ready! "Play away!"

We insert to-day an article written by the editor of the Eastern Enquirer, in answer to a communication in the Eastern Argus. The Enquirer is suspended for a few weeks, and we extend to Mr Bartlett this neighborly courtesy of allowing him to appear in our columns in his own defence, over his own signature, as we beheve he would willingly grant a similar favor to us in a change of circumstances.

A petition is in circulation in this city for signatures for a reduction in the rates of postage, and about six hundred persons havealready signed it -Similar petitions should be started in other places and the interest which the people teel in this business made to appear to their representatives at Washington.

The Belfast Journal, in speaking of the defeat of Cary in the Seventh District, says the 'Democrats' were caught napping! The Editor of the Journal is either ignorant of the subject or he wilfully misrepresents. We think in either case he writes in perfect character with

IF Mr Henshaw is still officiating as secretary of the navy, and will do so some time longer. It is said that his own wish is to retire at once, but that at the President's earnest request he remains, says the N.Y. Aurora.

The Calais Journal states tha ta flock of ferocious Loupcerviers numbering some five or six, have been seen a number of times within a few days but a short distance from that village. One man says he saw them in the road and that it was with great difficulty that he could force them to leave the premises or give him a pass.

We see by the Portland papers that our old friend, Abijah Jones, Esq., late of the Merchants' Exchange, in this city, has got well regulated at the United States Hotel, in Portland, and gives the public an invitation to try his fare. We shall certainly call before soon and try some of those excellent fresh fish, such as that prince of caterers, Barker, used to serve up.

Melancholy Accident.

The Eastport Sentinel states that one of the boats of H. B. M Steamer Columbia, with five of her crew on board, was upset on Saturday as One of those on board, a boy about 15 years old, was drowned; the others, after being in the water for nearly half an hour, were saved by the exertions of Mr Michiner and Mr Wilder, who went to them in their boats with all possible speed as soon as they saw the accident. The persons saved were very nearly killed by the cold, which was intense at the time, but it is understood they are now doing well.

The Eastern Enquirer.

To the Editor of the Whig & Courier:

An anonymous scribbler in the " Eastern Argus," whose falsehoods appeared in that paper on Monday last, under date of " Bangor, January 25," would not have been noticed by me, were his statements less flagrantly outrageous, and were I not well convinced from whom they the publication of the Enquirer, (which it is exting sarcasin, as he evidently considered it, it the brow. were best, perhaps, to have nothing to do, but to If we withdraw from an empty cask all air, it Amen and Amen. tumbles in ruins. So if we should doubt the force of the wit or the pungency of the saicasm, of this Argus scribbler, the effect would probably be a fatal one.

But I proceed to the enumeration of the aforesaid falsehoods. No 1. That the Enquirer "opposed almost every democratic nomination in the State and county." This is fulse in toto, as the files of the Enquirer will prove. It is true, however, that it did not land the gentleman who now occupies the Gubernatorial Chair of our State, nor did I assist at the ballot-box in his election. The Enquirer's columns did not groan with articles praising him, because its editor knew of nothing to say in his favor, as a politician, but had heard and read of much which convinced him of his unfitness for the office he now fills, and also knew of much which rendered his nomination irregular; and he likewise believed then, as now, that no nomination brought about by witepulling and the meanest demagogueism, is democratic. He will no more bind himself to vote ior all nominations—regular or irregular, Ithan he would to support all measures which may be originated in State and National Legislatures, let them be right or wrong. The one is but the counterpart of the other, and it is gratifying to all but demagogues-party backs, and the "old Hunkers," of a fallen dynasty, that the day has at length arrived, when the people, who have so long been proclaimed sovereign,

the right and best men must be nominated, in order to secure their election at the ballot-box. This doctrine the Enquirer proclaimed, and for this reason it was never any thing but an eyesore to those who now chuckle over its temporary suspension, vainly flattering themselves with the idea that it has fired its last broadside. But they may rely upon it, they shall meet it again at Phillippi.

No 2. This lie stated that the Enquirer "outrageously slandered Mr Van Boren" It is true I published a few scraps of the history of this "great overthrown," and once solemnly stated that a gentleman of this city had received some apples from his farm, for which the enormous price of twelve and-a-half cents boys, in sliding down our hills. The risk of to this day, that any twelve men in the Union, life is also great, and should be avoided. Let would bring in that we ought to be crucified for were of the exclusive Van Buren Guard.

No 3. This he is contained in the same senthe Enquirer "outrageously slandered" the most "philanthropic and kindest men in the community," and then goes on to name County Treasurer, Haynes, (who, no doubt, wrote the letter to the Argus, and got his partner to copy it, as he s not on the most friendly footing with Mr. Case, its editor,) and the Eastern Argus, Elihu Burritt and Mr. Hawkins! These men were all "outrageously slandered." With regard to Mesers Burritt and Hawkins, it is unnecessary to say a single word. They never met with abuse at my hands, but I plead guilty to stating quite a number of truths in relation to Messrs. Haynes and the Argus editor The former I have frequently had upon the editorial-spit, and promise soon to have him there again. I have made vanous and serious charges against him, not one of which has he ever disproved, and for the very best of reasons-he cannot! But, in the name of all the Gods at once, who ever heard that this Mr. Haynes was one of the "most philan-TA large delegation of Western Indians are thropic and kindest men in the community?"-Hark '-echo answers, who?

> "Patroclus, thy superior, is no more." "If I were not Alexander, I should wish to be

No. 4. This falsehood, or he,-the former is too gentle, consists in saying that I was frequently obliged to return thanks to the publishers of the "Whig" for aid. Never was this pone but in one instance, and I am grateful for their neighborly kindness, and shall take pleasure, if it shall ever be in my power, to reciprocate the favor.

No. 5. This stated that I published articles laudatory of a protective tariff." This is as black a falsehood as the Prince of Darkness himself could possibly invent.

The last paragraph of this truthful correspondent's letter, begins with the quotation-"The ruling passion is strong in death." And then repeats what had been uttered before, that the it was returning from that place to Welch Pool. | " Enquirer" went out of the world " filled with gross abuse of Mr. Van Buren," which any one with half an eye will discover on turning to the files, is untrue, unless what we have stated under the head of No. 2, be abuse.

From what has now been stated, it will not be difficult to infer the utter recklessness of the Bangor correspondent of the Argus. He is purblind to all sense of veracity-destitute of moral as he is of political integrity—a miserable cog in the party machinery of the little gentleman who turns the crank at Kinderhook. Nothing can be genuine-no politician worthy-no democracy true and fervant-unless marked on the outside printed wrapper, Martin Van Buren in him is found the special and only embodiment of democracy, and except a man believe on and in him, he can in no wise be a true and genuine proceeded. But with your kind permission, and democrat. The argument is, as in Van Buren in consequence of the temporary suspension of all fell, so in him shall all be made alive,-that is, all those that were turned out of office in pected will be resumed in a few days,) as well 1840, must be restored in 1844, or else certain as to hold up to the public the untruths alluded managing, monsing, shouting, deceiving, lying to, I will proceed to the task of showing up this politicians, will have to do as they ought to have modern Cretan. The Whig Doctrine.

The Legislature of Georgia, at its recent session, took high and noble ground in relation to the doctrine of repudiation

" Resolved. That we regard the slighest breach of plighted faith, public or private, as a want of that moral principle upon which all moral obli-gation depends. That when any State of this Union shall refuse to recognize her great seal as the sufficient evidence of her obligation, she will have forfeited her station in the sisterhood of States, and will no longer be worthy of their confidence or respect."

Secret Session.

In a recent debate in the U.S. Senate, the records of the Senate, which were read, showed the fact, which may be new to some of our readers, that during the early period of our Government, the practice was for the President, when the Senate was in Executive session to enter the chamber, and take his seat by the side of the presiding officer and there receive the counsel and advice of that body.

William Dorr (whig) was elected Representative to the Legislature from Waterville on Monday last. 'The Whigs of Waterville are always "up and dressed."-Ken Journal.

Passed to be enacted.—Bill in addition to Chap. 97 of the Revised Statutes.

Resolves in relation to the State Prison, reported by the Committee, were read and passed. Various petitions were presented and referred, which will be noticed in future stages.

In the House. The report of the Joint Select Committee to contract for Job Printing and Binding was received from the Senate accepted. It was read, and on motion, laid upon the table. Resolve in relation to the State Prison came from the Senate passed. The House, after amending the same, concurred.

Petitions presented and referred-Of Jotham Brackett and 94 others, of the town of Acton, asking for Summer sessions; of Alfred J. Stone tence with the above, and is to the effect that et als. for aid from the State to make a road, to open a communication from Maine to Canada.

We have read with much pleasure, says the Washington Standard, the letter of John P. Kenedy, Esq, a representative in the 27th Congress from Baltimore, to the Clay Club of the Sixth Ward in that city. It is just what might have been expected of him-full of patriotism and sound argument. We insert below an extract explanatory of the objects the Whig party have in view in the present contest:

"We contend for the rights of industry; for the rights and the success of American workmen, before the workmen of all the world beside; for our own country before all other countries. We contend for the prosperity of trade-trade founded upon the products of our domestic toil, upon the expansion and perfection of our own mechanic arts, upon the abundance and thriving condition of our home market-in comparison with which the markets of all the world abroad, that are open to us, sink into insignificance. We contend for the success of our own navigation, the welfare of our own shipwrights, our seamen, and all the thousand connections that belong to that important concern We contend for the prosperity of agriculture, and the importance of rearing up, for its use, a large and prosperous community of domestic consumers of its products. We contend for the great interests of commerce—a commerce that shall thrive upon the affluence of our own people, and which shall be enjoyed by the American merchant, in preference to the merchant of any other land. We contend for the interests of a sound national currency, as indispensable to the operation of that vast traffic and exchange by which the business of the nation is alone diffused and rendered productive. In standing forth as the advocates of these interests, we defend and maintain the dearest rights of Free Government itself."

LORRAINE'S PILLS. OR VEGETABLE UNIVERSAL MEDICINE CURATIVE OF THE

French College of Health, in Paris. THE following letter was received yesterday by bor in vain. mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Univer

Sin-I have been for many years a sufferer from

Voying men intending to the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inutility of all remedies awakened my enquiries as to the thousand different methods of cure, more important and difficult branches of study to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use \$1,25 to \$1,50 perweek. of them I found immediate relief and was soon re stored to a perfect state of health.

I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoy ed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Family Medicine.

SIR-I have used Lorraine's Pills in my family as family medicine, and I would most earnestly rec ommend them to all persons, as the best medicine that can be procured. I would not be without them -they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 2rom 25 to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL. Hartford, Conn. The Trustees of this institution would announce to the public that they have recently taken measures to add much to the advantages it has hitherto possessed. The buildings are undergoing thorough repairs, and will be rendered much more pleasant

They are convinced that in the multiplicity of branches usually taught in Academies, it is impossible for any one instructor to do justice to all of them. That every pupil should receive a proper amount of attention, there should be a division of labor.

NEW PRINCIPLES OF PURGATION SANDS' SARSAPARILLA. Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CON-TINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most wide-

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble debilitated, to regain its strength as best it may .-Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and Stick Dye Woods, and Dyeing Drugs, of every other horrible disorders are produced, simply from tive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURI-FYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz: NO PURGATION WITHOUT IMMEDIATE

RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, FION, and another to PRESERVE FROM INJU-RY AND DECAY.

And for the purpose of attaining the highest deree of purity in the preparation of these Pills, Dr Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a keep myself secluded, shunned by all, myself de chemical and philosophical apparatus for distilling shunning. I was induced to believe my case and refining vegetable extracts, called THE SEVEN-FOLD FURNACE,

and Seven Alembics, with distilling, condensing, and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract | matter ran, and life itself became almost a burde heretofore used in compounding medicine. The A few weeks since I was induced to use your & Baliamic and Preserving power of these Pills is also, by this invention, highly purified and refined. and so mingled with the operative medicine, that it ble sources, or persons who have been either repairs all the injuries created by Purgation as soon greatly relieved by it, or entirely recovered from as they are caused, and strongly fortifies the system against future corruption and decay.

vertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the hu- by using your invaluable preparation of Sarsapar man system by supposing that a medicine which la; and I now recommend it to all similarly afficient purges merely, without renovating or preserving, can be a perfect remedy. For it is a fixed and inimutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious, and injurious only—and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who Price \$1 per bottle, six bottles for \$5. follow it fall victims to their own folly, and too late repent their temerity.
